INFORMATION ABOUT COOKIES

Cookies are small text files that are stored on the computer or mobile device of a user who visits their pages. With the help of cookies, the website remembers your actions and personal settings (e.g. user name, language, font size and other unique settings related to the display of the website) for a certain period of time, so you do not have to re-enter them each time you or navigate from one page to another.

1. Internal cookies are those used by the website you visit. Information collected by internal cookies can only be processed and exploited by that website.
2. A website may also use external services, which also use their own cookies. These are what we call third-party cookies.
3. Persistent cookies are those that, unlike session cookies, are permanently saved on your computer, so they are not automatically deleted when you close your browser.

Cookies are also used to collect anonymized statistical data, with which we can get an idea of the browsing habits and user experiences of our website visitors.

We mostly use internal cookies on the Inter-CAD Kft.'s websites (www.axisvm.hu / www.axisvm.eu). However, some content may only be displayed if you agree to the use of third-party cookies.

We use three different types of internal cookies on our websites for the following purposes:
• storage   of visitor settings,
• making   our pages operational,
• collection   of analytical data (on user habits).

Visitor settings
These cookies store whether you have consented to the use of cookies on the website or not.

Operation Cookies
There are cookies that are essential for the operation of certain websites. Therefore, no user consent is required for these purposes (user identification cookies, technical cookies).

Authentication Cookies

These cookies are used when you log in to the website using a user identification system. By logging in at www.axisvm.hu / www.axisvm.eu you accept our privacy policy.

Analytical Cookies

These cookies are for internal use only. They help us discover how we can improve our services. We assess the usage habits of our visitors. The data collected is anonymized and cannot be linked to personal data.

Furthermore, we do not share this information with third parties and do not use it for any other purpose. We may share anonymized statistics with external contractors. However, you have the option to refuse the use of these cookies — even by selecting the appropriate option when you visit the site.

Third-party cookies

We also include content from third-party providers such as YouTube, Facebook and Instagram and LinkedIn on our website. In order to be able to display this third-party content, you must agree to the terms and conditions of the service provider, including those related to the use of cookies. Inter-CAD Kft. has no influence over these conditions. Service providers may change their terms of service, purpose and use of cookies, etc. If you do not wish to view this content, third-party cookies will not be stored on your device.

You can remove all cookies from your device by clearing your browsing history. This will delete all cookies from the website you visit. However, keep in mind that by deleting your history, you may also lose some saved information (e.g. login information, search settings).
In your internet browser, you can choose to accept or block certain cookies or block all of its placement. You can also ask for a warning when cookies are set on your device, and you can see what cookies the page you visit has placed on your computer. Please note that because cookies are intended to facilitate or enable you to use the portal, preventing or deleting the use of cookies may not be able to fully use the functionality of the website. The management of cookies must be configured differently for each browser. To do this, you should study the settings of your browser and the help pages:

- Google Chrome
- Firefox
- Internet Explorer
- Safari
- Edge

Cookies used on these sites:

Name:	Provider -	Purpose	Expiration	Type
pll_language	axisvm.eu	This cookie is used to determine the preferred language of the visitor and to set the language on the website accordingly.	1 year	Functional
__cfduid	.freegeoip.live	The cookie is used by cdn services such as CloudFare to identify individual clients behind the shared IP address.It does not store any personally identifiable information.	1 months	It is absolutely necessary
